Company Introduction

V-WIN is a professional manufacturer of tiles integrating scientific research, production, marketing and services. It has a large professional production base in Foshan City. Our factory has world-class Italian architectural ceramics production equipment and has the most advanced ceramic engineering R&D center, realizing advanced business management mode. It successively passed ISO9001 international quality management system, ISO14001 international environment management system and 3C.

Since V-WIN found, we have been insisting on the way of "from your heart". We survive on innovation, quality, design and service, taking customer satisfaction as our own goal, and insisting on providing customers with quality products, good and fast after-sale service. We have perfect marketing networks in the world. The company has established long-term excellent interactive relations with distributors in different places, which guarantees our steady development.
